

Teddy Text

Marella G and Claire C

A Story

Facts and Figures

Our Solution

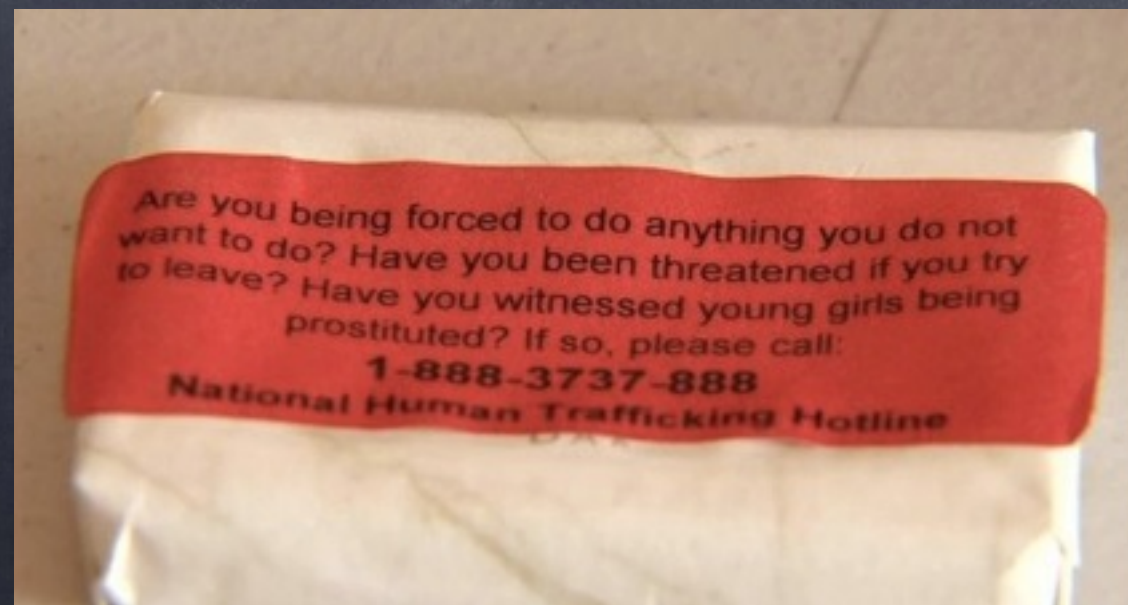

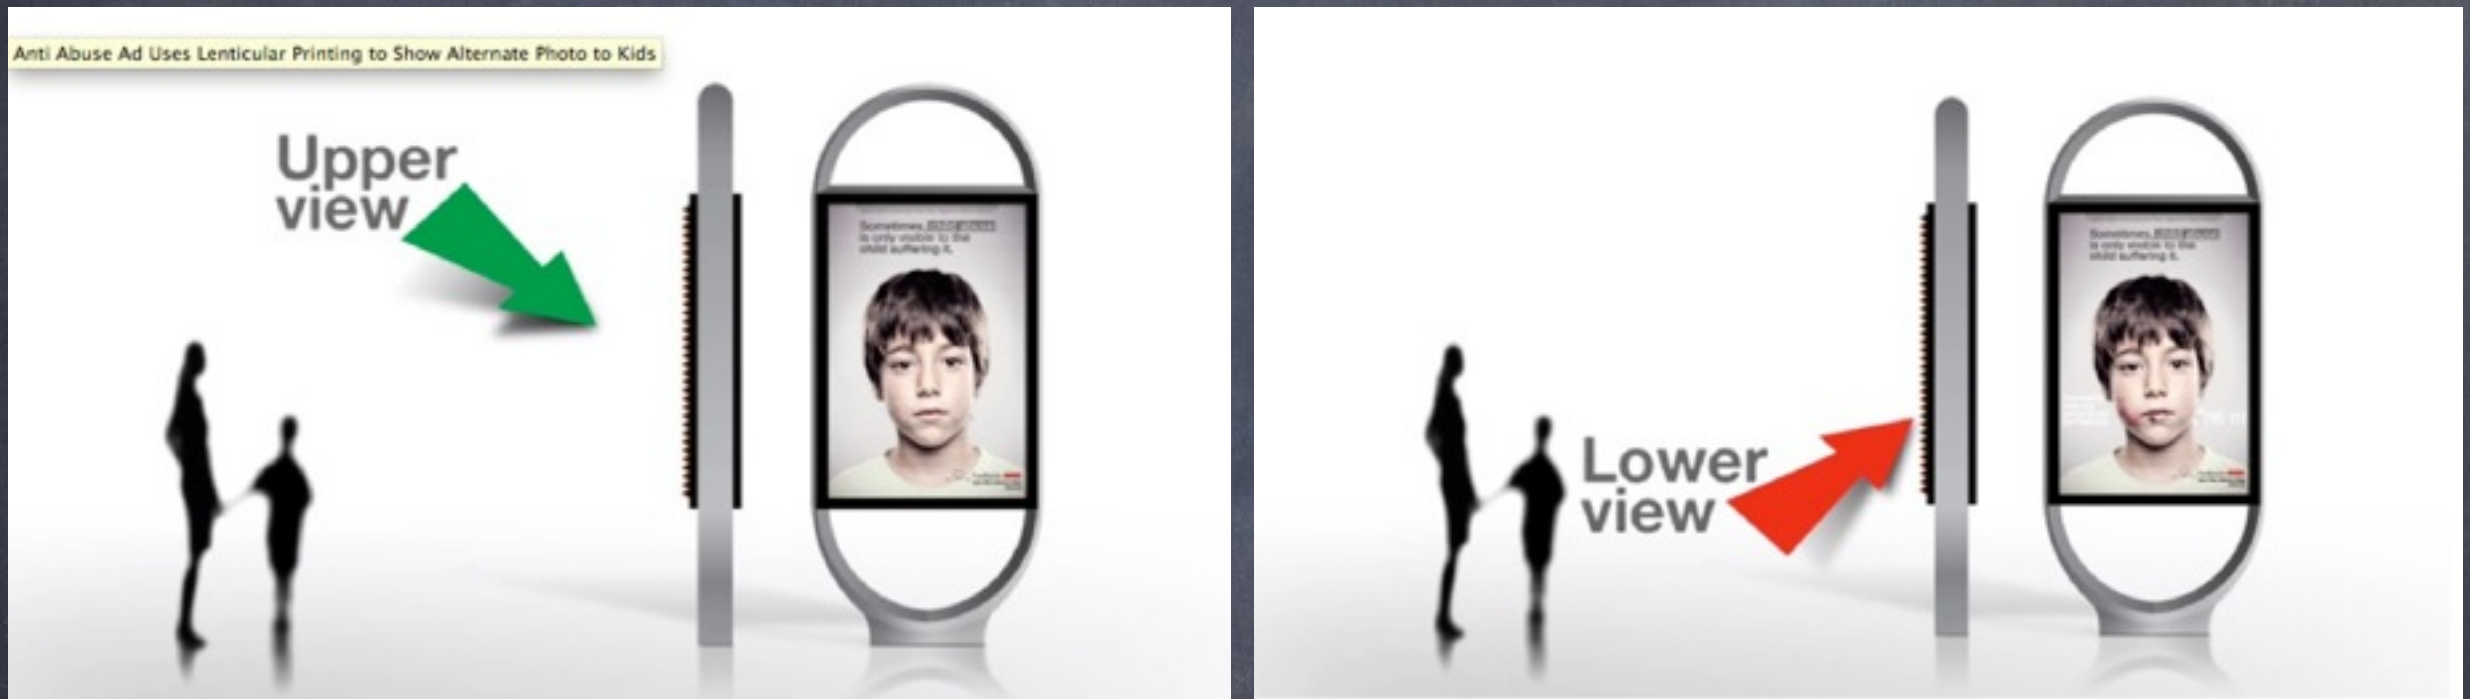

- For distribution to teachers and school counselors
- Sends a phone text message to emergency hotlines with GPS coordinates

Physics Application

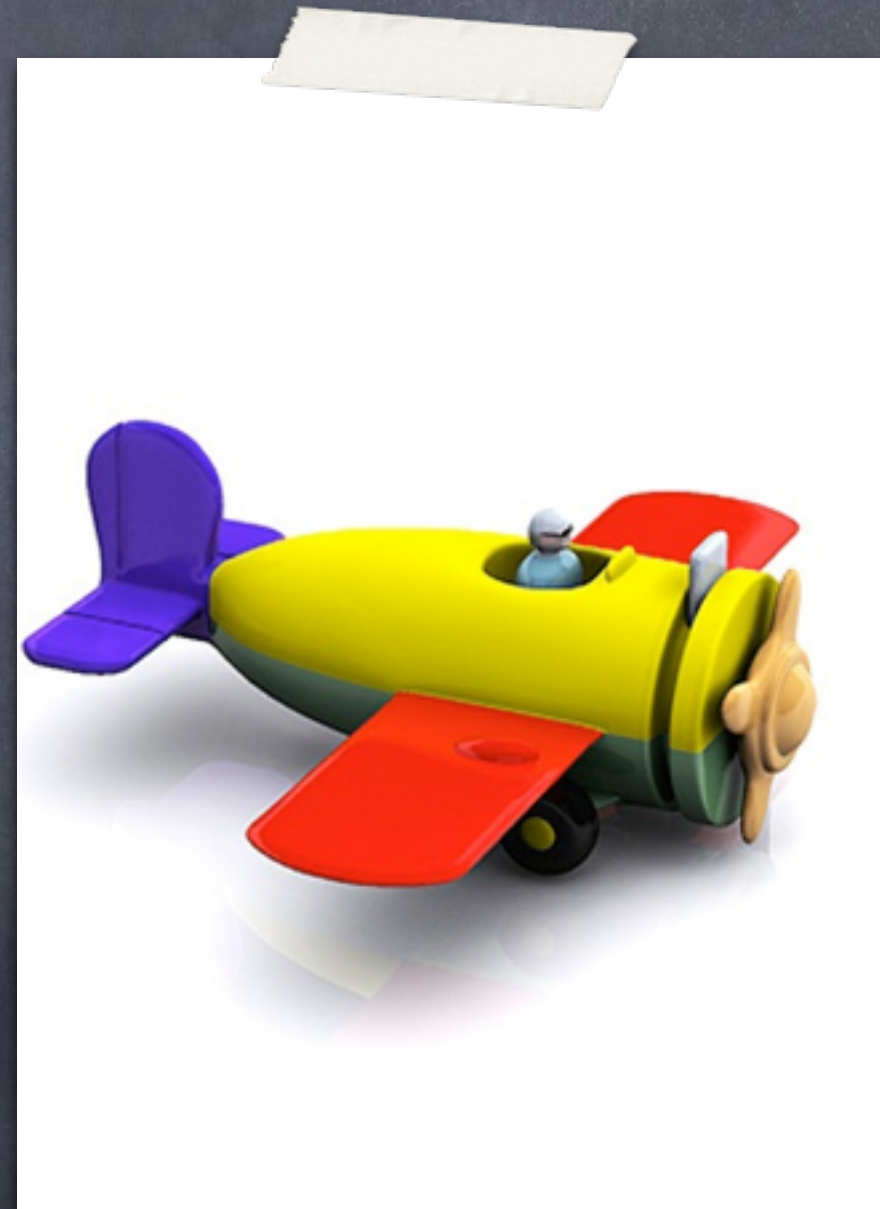

- Application of force in order to initiate message
- Use of an Arduino – another type of science

Design Process: Inspiration

Design Process: Our Journey

- Original design: plane
- New design: teddy bear
- Made for more practical building

A Happier Ending
